

Leslie Moore, DVM, MS

Leslie Moore, DVM, MS

Dr. Moore completed her master's degree and residency in small animal surgery at Auburn University. A native of Dallas, Texas, Leslie studied neuroscience and behavior at Columbia University in New York before moving back to Texas to pursue her passion for veterinary medicine.

Leslie obtained her DVM from Texas A&M University as a proud member of the class of 2012. She went on to complete a rotating small animal internship at Kansas State University in 2013, and then moved to Alabama to start her surgical residency at Auburn, which she completed in 2016.

Leslie has a particular interest in surgical oncology, reconstructive procedures and traumatology, but enjoys all aspects of small animal surgery. She believes strongly in collaborative medicine and caring for the whole patient. Outside of work, she enjoys trying new restaurants, exploring new places, and watching too much TV.

Education

Auburn University,
MS Veterinary Biomedical Sciences – 2016
Texas A&M University College of
Veterinary Medicine, DVM – 2012
Rotating Internship –
Kansas State University – 2013

Surgical Residency

Auburn University – 2016

Emergency & Specialty Hospital

Where care comes first.

Surgery

Surgery

Our surgeons have more than 30 years of combined experience in surgery. We perform many varieties of orthopedic, traumatologic, neurological, thoracic, cardiovascular, abdominal, and reconstructive surgery. A wide variety of minimally invasive procedures are performed routinely. Some of these are diagnostic and therapeutic arthroscopy, thoracoscopy, and laparoscopy. Our surgical team is comprised of more than ten highly trained staff. We perform emergency procedures 24 hours a day to maximize positive outcome and optimize patient care.

Some of the Surgical Procedures Commonly Performed by IndyVet.

Total Hip Replacement
Orthopedics & Traumatology
Neurosurgery
Thoracic & Cardiovascular Surgery
Abdominal Surgery
Head & Neck Surgery
Oncologic Surgery
Reconstructive & Plastic Surgery
Minimally Invasive Surgery

Our goal is to become an extension of your practice and to develop a long term relationship that will make the referral process as comfortable and efficient as possible for you and your clients.
